JUNE 2021

92 Points - Typically of Chenin Blanc, high acidity lurks beneath the wine's slightly oily texture. The long finish is worthy of a much more expensive wine. Despite its high acidity and simplicity of winemaking, this is not a generic high-acid, crisp, light wine a la a simple Pinot Grigio: it fills the breadth of your mouth in a way that high-acid whites generally do not.

2018 VINTAGE

WINE ENTHUSIAST
OCTOBER 2020

90 Points - Top 100 Best Buys of 2020 - This dry and complex wine offers gentle aromas of white flowers, crisp celery and green apple followed by a tangy white-peach flavor. Lifted acidity lends great balance in this rather light-bodied, bright and delicious offering.

PLANET GRAPE
